PART I.—DEFINITIONS.

1. In these regulations—

(1) "Health Officer" means any person appointed by the Governor in Council, either by name or by virtue of his office, to be Health Officer of a port, and includes an additional or Assistant Port Health Officer and, any officer appointed by the Governor in Council, either by name or by virtue of his office to perform any of the duties of a Health Officer of a port,

(2) (*a*) Except as provided in clause 1 (3) "healthy vessel" means a vessel which, even though coming from an infected port, has not had on board any death from, or any person suffering from, any of the diseases enumerated in the preamble either at the time of departure, or during the voyage from the last port of call, or on arrival;

(*b*) "infected vessel" means a vessel which has on board one or more cases of any of the diseases enumerated in the preamble, or on board of which a case of any of those diseases has occurred either during the voyage from the last port of call or in the event of such voyage exceeding 12 days, within the 12 days or (in the case of plague and cholera seven days) immediately preceding her arrival at a port in the Madras Presidency;

(*c*) "suspected vessel" means a vessel on board of which there has been a case of any of the diseases enumerated in the preamble, at the time of departure or during the voyage from the last port of call, but on board of which no fresh case of such disease has occurred within the twelve days or (in the case of plague and cholera seven days) immediately preceding her arrival.

(3) (*a*) Every vessel which has come from the east coast of Africa within the limits of Port Sudan and Durban or from any other locality declared to be infected with sleeping sickness or jigger is a "suspected vessel" for the purposes of these regulations, unless during the voyage there has been one or more cases or suspected cases of either of these diseases on board when it will be considered an "infected vessel."

(*b*) Every vessel which has within a period of two months immediately preceding her arrival started from, or touched on route at, a port infected with yellow fever or communicated (except orally without contact or by signal) with a vessel either infected or which has left an infected port within that period is a "suspected vessel" for the purposes of these regulations, unless within the same period there has been on board a case or suspected case of yellow fever when it will be considered an "infected vessel;"

(4) the term "infected," when used with reference to any articles, means infected with any of the diseases enumerated in the preamble;

(5) the term "infected port" means any port which Government may, by notification, declare to be infected;

(6) "master," when used with reference to a vessel, means any person (except a pilot or harbour master) having for the time being charge or control of the vessel;

(7) "Port Officer" includes any person acting under the authority of Government in charge of port discipline.

(8) "Medical Officer" (of a vessel) means any person holding medical charge of a vessel who is in possession of a certificate or diploma in medicine and surgery of a recognised university or medical school and registered in the country in which he obtained it.

PART II.—VESSELS ARRIVING AT PORTS IN THE MADRAS PRESIDENCY.

2. The master of every suspected or infected vessel arriving at any port subject to these rules shall hoist a signal which shall be

by day the Code flag over Flag L of the Commercial Code, which is a square flag of yellow and black barns quarterly, and

by night three lights, at a height of not less than 20 feet above the hull of the ship, which shall be arranged at a distance of not less than six feet apart in the form of an equilateral triangle, and of which the light at the apex of the triangle shall be white and the lights at the ends of the base shall be red,

and shall report every such case or death that may have occurred from any of the causes enumerated above, or in the case of a vessel not carrying a medical officer any death from any cause, to the pilot or other boarding officer at the earliest opportunity, and shall also comply, on arrival at such place as may be appointed in this behalf by Government, with such regulations as may be made by Government in regard to—

(i) signalling the name of the port from which the vessel has come,

(ii) stopping at a particular place,

(iii) refraining from communication with the shore, and

(iv) taking measures for giving effect to the present regulations.

3. If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the master shall hoist the signals specified in Regulation 2.

4. The pilot or other boarding officer shall promptly report the circumstances of the case to the Port Officer, who shall immediately forward any report so made or give notice of any signal hoisted to the Port Health Officer.

5 (1) When any health vessel except as otherwise provided in clause (3) is within sight of a port in British India, the master shall intimate the fact by signal.

(2) Such intimation shall ordinarily be accepted by the Port Officer, and if so accepted the Health Officer need not visit the vessel, which may be considered to have pratique.

(3) The master of a healthy vessel on which unusual mortality among rats has been observed shall hoist the signals specified in Regulation 2.

PART III.—BERTHING OF VESSELS.

6. (*a*) If the number of deaths from or cases of the diseases enumerated in the preamble, with the exception of plague and yellow fever, does not exceed two, the vessel will not be prohibited from taking up the usual place of anchorage in the harbour or port, except that she may not enter the docks without the written permission of the Health Officer, and the passengers and crew not suspected of having any of the diseases in question need not, except in the case of pilgrim and emigrant ships and those not carrying a medical officer, be detained on board pending the inspection of the Health Officer. The master of the vessel shall be responsible that no one of the passengers or crew, except those referred to above, is allowed to leave the vessel before inspection by the Health Officer, and shall prevent the landing of bedding, clothes, or other personal effects which he has reasonable cause to consider likely to be infected.

(*b*) If the number of cases or deaths within the previous twelve days has exceeded two, or when from their occurrence on pilgrim or emigrant ships or for other special reasons further precautions may be deemed advisable, the pilot, or in his absence the master, shall keep hoisted by day or night as the case may be, the signals prescribed by Regulation 2, and shall anchor the vessel in the place appointed for the purpose and shall not allow any of the passengers or crew to leave the vessel except with the permission of, or under such instructions as may be issued by, the Health Officer.

7. If a case of yellow fever or of plague or unusual mortality among rats has occurred on board, the vessel shall not take up the usual place of anchorage pending the visit of the Health Officer; in the meanwhile the vessel shall stop at such place as the Port Officer may by order provide.

8. So long as the signals prescribed by Regulation 2 are shown, no person in charge of or navigating any boat shall, without the permission of the Health Officer, attempt to take it alongside such vessel.

PART IV.—INSPECTION OF VESSELS.

9. Whenever the Health Officer receives the notice referred to in Regulation 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo, and any part of the ship the Health Officer thinks necessary. The Health Officer may require a declaration on oath from the medical officer (if any) of the vessel or from the master or from both, whether any death or sickness from an unknown or suspicious cause or any case of any of the diseases enumerated in the preamble has occurred on board the vessel either during the voyage or before her departure, and with reference to plague, whether any unusual mortality has been observed among rats. If

the Health Officer is satisfied that such deaths as may have occurred were not due to any of the causes enumerated in the preamble, he shall permit the vessel to proceed to the usual place of anchorage and to discharge passengers and cargo without any further restrictions. If he is not so satisfied he shall proceed as provided in these regulations. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

10. As a result of every inspection, the Health Officer shall classify the vessel as infected, suspected or healthy, in accordance with the definitions given in Part I.

11. On the completion of the inspection prescribed by Regulation 9, such of the passengers and crew as have been detained under Regulation 6 (*a*) but who are found to be free from any of the diseases enumerated in the preamble and unlikely to carry infection shall be allowed to land. All baggage, personal effects and cargo, except such articles as the Health Officer is entitled to disinfect, may also be landed.

12. If a case of any of the diseases enumerated in the preamble occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

PART V.—REMOVAL OF THE SICK.

13. When on inspection the Health Officer considers it necessary in order to prevent the spread of disease, he shall take the measures indicated in Part VI of these regulations as the case may be.

14. Unless a vessel shall have had communication with the shore under the proviso to Regulation 44, and except as provided for under Regulation 19 (2) and 34, the removal of sick passengers is not to be enforced in the case of persons bound for an onward port unless under the clearest necessity of which the Health Officer shall be the judge, and in every such case a special report explaining the reasons for the action taken must be submitted by the Health Officer to Government.

15. The Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to a sanitorium or hospital or other place within municipal limits, and shall furnish the Municipal Health Officer with the address of any private residence to which he permits the removal of a patient.

16. Where small-pox is the disease on account of which the vessel is deemed to be infected, the Health Officer shall offer, without charge, vaccination or revaccination to all persons willing to be operated upon, and shall cause to be vaccinated, if their guardians or those in charge of them consent, all children below 10 years and over 6 months of age who do not bear marks of vaccinating or of small-pox. In the case of plague inoculation may similarly be offered free of charge to all willing to be inoculated.

PART VI.—MEASURES TO BE TAKEN IN THE CASE OF HEALTHY, INFECTED AND SUSPECTED VESSELS.

17. Vessels classed by the Health Officer after inspection as healthy, shall be given free pratique, save as otherwise provided in rules 23 and 24. Other vessels will be dealt with in accordance with rules contained in Parts VI (A), VI (B), VI (C), VI (D) or VI (E), according to the disease on account of which they are declared suspected or infected.

PART VI-A.—SMALL-POX, CHICKEN-POX, MEASLES, CHOLERA TYPHUS AND SCARLET FEVER.

18. In the event of a vessel being classed either as infected or suspected on account of any of the above mentioned diseases, the Health Officer

(1) shall arrange for the conveyance of any person suffering or suspected to be suffering from such disease to a sanitarium or hospital, unless the sick person or his friends can make adequate provision elsewhere of which the Health Officer must satisfy himself; but he shall not enforce the removal from the vessel of any person or persons bound for an onward port except as provided for in Regulation 14;

(2) shall either himself undertake, or direct the master of the vessel to undertake, the destruction or disinfection of all clothing, bedding and other articles that he may consider infected;

(3) may, when a vessel with one or more of the above-mentioned diseases on board has in his opinion passengers or crew in a filthy and unwholesome condition, cause the clothing and personal effects of such persons to be disinfected before allowing them to leave the vessel;

(4) may, in the case of unlocked craft, direct the disinfection, or in special cases the destruction, of food-stuffs which have been exposed to contamination and are considered likely to be infected;

(5) may order that any portion of the vessel that has actually been exposed to contamination or is in a filthy or insanitary condition, or which he considers likely to be infected, should be disinfected and cleansed as he may direct and may prohibit the discharge of bilgewater or water ballast within port limits without previous disinfection;

(6) may, in the case of cholera, direct the master to have the bilges and water tanks emptied, cleaned and disinfected.

PART VI-B.—PLAGUE.

19. In the case of infected vessels the following measures shall be taken:—

(1) All persons on board shall be medically examined as prescribed in Regulation 9.

(2) All persons suffering from plague shall immediately be disembarked under the directions of the Health Officer and isolated in the camp or hospital, whether ashore or afloat, appointed by or under the orders of the Governor in Council for the purpose.

(3) At the discretion of the Health Officer other persons may also be disembarked and be subjected to observation * or surveillance * or to a period of observation followed by surveillance provided that the total duration of these measures shall not exceed five days from the time of arrival.

(4) Such soiled linen, wearing apparel and articles belonging to the crew and passengers as are, in the opinion of the Health Officer, infected, shall be disinfected.

(5) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

(6) The rats on board shall be destroyed, either before or after discharge of the cargo, in either case as quickly as possible, and in such manner as to avoid as far as possible damage to merchandise and to the ship's plating and engines. The operation, in any case, must not last longer than forty-eight hours. In the case of ships in ballast this process must be carried out as soon as possible, before embarking cargo.

(7) Passengers arriving by an infected ship and subjected to the provisions of clauses (2), (3) and (4) above are entitled to obtain from the Health Officer a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

20. When the measures prescribed in Regulation 19 have been duly taken in respect of any vessel the Health Officer shall, by written order, grant pratique, provided that, if a case of plague or of illness suspected to be plague occurs on board subsequent to the grant of the above certificate, the certificate shall become invalid and the vessel again become subject to the requirements of the regulations regarding infected vessels.

21. In the case of suspected vessels the following measures shall be taken:—

(1) All persons on board shall be medically examined as prescribed in Regulation 9.

(2) The destruction of rats may be ordered at the discretion of the Health Officer, and if ordered shall be carried out in the terms of Regulation 19 (6).

(3) All soiled linen, wearing apparel and personal effects of the crew and passengers which are or are suspected to be infected, shall be disinfected.

(4) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

22. When the measures prescribed in Regulation 21 have been taken in respect of any vessel, the Health Officer shall, by written order, grant pratique.

23. In the case of healthy vessels, other than those referred to in rule 24, pratique shall ordinarily be given at once as provided for in Regulation 17 but the Health Officer may, in his discretion, if special circumstances appear to him to require it, impose any or all of the following measures:—

(1) medical examination as prescribed in Regulation 9;

(2) disinfection of soiled linen, etc., as prescribed in Regulation 19 (4);

(3) destruction of rats as prescribed in Regulation 19 (6); but the process of destruction when applied in the case of a healthy ship from a plague-infected port must not occupy more than 24 hours and should be carried out in such a manner as not to interfere with the coming and going of passengers and crew between the ship and the shore.

24. In the case of a healthy vessel on which unusual mortality among rats has been observed, the following measures shall be taken:—

(1) Medical examination as prescribed in Regulation 9;

(2) Bacteriological examination of rats for plague as far and as quickly as possible;

(3) Destruction of rats as prescribed in Regulation 19 (6) when considered necessary by the Health Officer or when rats are found on bacteriological examination to have plague;

(4) In case of rats having plague, disinfection of such parts of the ship and such articles as the Health Officer considers infected;

(5) SURVEILLANCE OF PASSENGERS AND CREW FOR A PERIOD NOT EXCEEDING FIVE DAYS FROM THE TIME OF ARRIVAL.

* "Observation" means isolation either on board the ship or in a sanitary station appointed for the purpose before the grant of pratique. Passengers under "surveillance" are not isolated, they receive pratique at once and are at liberty to proceed to their destination, but the authorities at those places are informed of their coming and they are subjected to medical examination for such period as may be fixed in these regulations.

25. In exercise of the functions imposed upon him by Regulations 9, 19 and 21, the Health Officer shall :—

(a) attach due importance to the presence on board the vessel of a medical officer and to the provision of apparatus for disinfection by means of saturated steam and for the destruction of rats, and

(b) shall take into account the sanitary or insanitary, and roomy or crowded condition of the vessels.

26. If in the case of any vessel making a passing call, the communication with the shore is restricted to the landing of passengers, mails or goods, the Health Officer may, in his discretion, enforce the provisions of Regulations 19, 21, 23 or 24 as the case may be to such extent only as may, in his opinion, be necessary for the purpose of controlling the actual communication with the shore.

Provided (a) that any persons on board the vessel whom the Health Officer has reason to believe to be suffering from plague shall be landed and kept under observation.

Provided also (b) that ships from an infected place that have been disinfected and have undergone adequate sanitary measures, shall not, on their arrival in another port, be subjected to these measures a second time if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage or mails, without having been in communication with the shore, shall not be regarded as having called at the port.

27. The Health Officer shall whenever requested furnish the master, the ship-owner or the ship-owner's agent with a certificate stating that measures of rat destruction have been carried out and giving the reasons why they were resorted to. HEALTH OFFICERS OF PORTS VISITED BY SHIPS UPON WHICH PERIODIC RAT DESTRUCTION IS CARRIED OUT, SHOULD TAKE SUCH CERTIFICATE INTO ACCOUNT IN CONSIDERING WHETHER MEASURES UNDER REGULATION 23 (3) SHOULD BE IMPOSED.

28. The foregoing regulations shall not prevent the transhipment, under restrictions to be imposed by the Health Officer in conformity therewith, of passengers, mails or goods between vessels which have not been granted pratique

29. If any case of plague occurs among any group of persons who are being kept under observation, the patient shall be isolated or sent to a hospital, and the other persons shall continue to be detained and segregated as aforesaid for a period not exceeding five days from the date on which the group become free from plague. The clothes and effects of the patient and of such persons as have been in contact with the patient shall be disinfected at the discretion of the medical officer in charge.

30. The medical officer in charge of any place appointed for the isolation of any persons under these regulations may, in his discretion, by written order, direct that any person who is kept there under observation shall be allowed to depart and shall be subject to surveillance.

31. If the system of surveillance to which any person is subjected on shore requires his daily attendance before a medical officer, the Health Officer may, by written order, exempt such person from such attendance on being satisfied that he may be relied upon to send in a prompt report if he should fall sick.

32. Persons subjected to surveillance shall submit to, and comply with, all directions as to medical supervision or otherwise, which may be given by written order of a medical officer appointed by or under the orders of the Governor in Council in this behalf.

PART VI-C.—YELLOW FEVER.

33. In the case of vessels which have, within a period of two months immediately preceding their arrival, started from or touched en route at a port infected with yellow fever or communicated (except orally without contact or by signal) with a vessel either infected or which has left an infected port within that period, the following procedure shall be observed :—

(1) The vessel shall be anchored at sea at such special anchorage as may be fixed for this purpose by the Port Officer but in no case less than half a mile from the land at low water The visit of the Health Officer shall be made during the day as early as possible and all persons on board shall be medically examined as prescribed in Regulation 9.

(2) Any person suffering from yellow fever, if in the first four days of the disease, or if there is any doubt about the duration of the disease, shall be protected from the approach of mosquitoes by means of curtains, and shall be treated on board for at least four days. Any person suffering from fever shall similarly be isolated, be protected from the approach of mosquitoes by curtains and treated on board for at least four days. All passengers in perfect health (with normal temperature, etc.) may be landed, and shall be kept under close observation for a period of at least eight days extensible at the discretion of the Health Officer to a maximum of twelve days, special precautions being taken throughout the whole of this period to prevent mosquitoes having access to them.

(3) In no case should any person sick of yellow fever be landed during the first four days of his illness without the special sanction of Government. If such sanction is given, the most minute precautions to prevent mosquitoes reaching the patient shall be taken, including a mosquito-proof cabin on the launch, mosquito-proof ambulances and a mosquito-proof ward in an isolation hospital.

(4) The crew of the vessel should be required to sleep in airy places preferably on deck, and should be protected by mosquito curtains.

(5) The ship shall be cleared of mosquitoes by the systematic fumigation,* under efficient supervision, of every cabin, store-room, alley-way and hold.

(6) All water in which mosquitoes could breed should be emptied into the sea and all drains flushed by means of a hose. The bilge should be pumped out or oiled. The drinking water tanks should be emptied to get rid of larvæ, fresh water being taken and the tanks completely filled so as to drown any adult mosquitoes which may be present in them.

(7) Provided if no case of yellow fever has occurred on board within two months immediately preceding the vessel's arrival, only such of the above measures in addition to those described in paragraphs (1), (5) and (6) shall be carried out as are considered by the Health Officer necessary in the circumstance of the case.

(8) No ship shall leave the anchorage for the purpose of taking up her berth until the measures described in paragraphs (5) and (6) have been carried out.

PART VI-D.—SLEEPING SICKNESS.

34. In the case of a vessel having on board a person suffering, or suspected to be suffering, from sleeping sickness, the person or persons shall not be permitted to land without the specific written permission of the Health Officer, who may, pending the receipt of written instructions from Government, permit the landing of such persons only if arrangements can be made for their strict isolation on shore. In the case of Aden the Health Officer may prevent the embarkation of, or subject to the arrangements above referred to, may disembark any person proceeding to India who is suffering or suspected to be suffering from sleeping sickness.

35. In the case of a vessel arriving from the East Coast of Africa within the limits of Port Sudan and Durban or from other localities declared to be infected, the procedure prescribed by Regulation 2 shall be complied with and the crew or passengers, etc., shall be medically inspected in accordance with Regulation 9.

PART VI-E.—JIGGER.

36. In the case of a vessel having on board any person or persons suffering from jigger—

(1) the Health Officer shall carefully examine every person on board and any person or persons found to be suffering shall be removed to hospital for treatment;

(2) the clothes of infected persons shall be disinfected, and the Health Officer may, in his discretion, order the disinfection of the clothes, bedding, etc., of all persons on board;

(3) any part of the vessel likely to harbour jigger fleas shall be thoroughly washed with a watery solution of kerosene oil emulsion or in a recognised solution of tar acid which is accepted by the Port Health Officer;

(4) the ballast of such vessel, if of earth or sand, shall not be landed without the permission, in writing, of the Health Officer, who, if he considers it necessary, may order that it shall be discharged into the sea or rivers at such places as shall be appointed for the purpose by Government.

PART VII.—GENERAL.

Vessels.

37. The master of any vessel coming under these regulations shall comply with all directions which the Health Officer may consider necessary under the foregoing rules.

38. The master of any vessel who may object to submit to the foregoing regulations may put out to sea again, provided that objection has been taken before there has been any communication, except by signal or through the port authorities, between such vessel and the shore or with any other vessel in port. Goods may be landed from such vessels after precautions have been taken to isolate the ship, crew and passengers and on condition that such information as the Health Officer may require regarding the mortality among rats is duly supplied. Passengers may be disembarked at their own request on condition that they submit to all the measures prescribed by the local authorities.

39. In the event of any vessel putting back to sea the Health Officer shall intimate the fact by telegraph to the next port of call in British India.

* Sulphurous acid is probably the best gas to use.

Persons.

40. All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place and shall be liable to pay all such charges as for the time being may, under the sanction of Government, be made against them.

41. When a suspected case of any infectious disease is removed from a vessel at any port, the Health Officer shall report the confirmation or otherwise of the diagnosis, by telegraph, to the Health Officer of the next port of call if that port is in British India, Ceylon or the Straits Settlements. In other cases a note shall be made on the bill of health stating the nature of the suspected infectious disease and the precautions taken in connection therewith.

Dead Bodies.

42. Disposal shall be as follows:—

(1) If death occurs on board a vessel before entering port limits, the body shall, unless there are special reasons to the contrary, be buried at sea in not less than nine fathoms of water, in such manner as shall secure its immediate sinking and remaining below the surface.

(2) If death occurs during the day on board a vessel within the port limits the ensign and house flag, if there is one, are immediately to be lowered half-mast and kept in such position from sunrise till sunset as long as the body remains on board. If a death occurs between sunset and sunrise, four lights are to be hoisted at the peak in a vertical line one over the other not less than three feet apart, the two highest being red and the two lowest white.

(3) The master of the vessel shall cause the death of a person on board to be intimated forthwith to the police, either by letter or otherwise and shall forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death must be fully detailed.

(4) No dead body shall be removed from a vessel within port limits without the permission of the police, which shall not be given until the Health Officer has certified either—

(*a*) that the death is not due to infectious disease, or—

(*b*) that in the case of infectious disease, the Port authorities have given permission for burial on shore.

If the Port authorities in consultation with the Health Officer decide that burial on shore cannot be permitted, the body must be buried at sea in such manner as the Health Officer may direct.

Disinfection.

43. All disinfection prescribed by these regulations shall be carried out, unless otherwise specifically provided for, in the manner prescribed in the Appendix thereto.

PART VIII.—VESSELS LEAVING PORTS IN THE MADRAS PRESIDENCY FOR PORTS BEYOND INDIA.

44. No vessel shall leave any port in the Madras Presidency which has been declared to be infected with any contagious or infectious disease for any port beyond India until—

(1) all persons sailing by the vessel, whether as passengers or as members of the crew, have been medically examined by the Health Officer;

(2) in the case of plague—

(*a*) all persons sailing by the vessel, either as passengers or as members of the crew (except such onward bound passengers as have not remained one night on shore and such members of the crew, as have not remained one night on shore or have not newly joined, who may be examined on board) have been medically examined by the Health Officer on shore by day as shortly as possible before embarkation;

(*b*) all merchandise or articles of any sort which the Health Officer may consider to be infected with plague have been disinfected on shore previous to embarkation;

(*c*) all clothing, bedding and infected articles belonging to Asiatic and African passengers, and to third class passengers not entitled to cabin accommodation, which the Health Officer may consider to be infected with plague, and, if the Health Officer thinks fit so to direct, all clothing, bedding and infected articles belonging to passengers of any class higher than the third and of any members of the crew, have been disinfected on shore by day as shortly as possible before being placed on board;

(3) the Health Officer has given to the master of the vessel a bill of health stating that the medical examination and disinfection prescribed by this regulation have been carried out.

(4) in the case of any disease other than plague the Health Officer may, in his discretion, enforce the provisions of clauses 2 (*b*) and 2 (*c*) above.

Provided that, if the vessel is only making a call at the port in question, the medical examination and disinfection prescribed by this regulation shall be made only in the case of persons joining the vessel there and articles belonging to them, unless there is

communication between the vessel and the shore. The Health Officer shall decide, for the purpose of this proviso, what constitutes communication between the vessel and the shore. The bill of health in such case need only take the form of an endorsement on the last bill of health held by the vessel and need only refer to the passengers and crew embarking at the port in question.

45. It shall be open to the Consular representative interested in any vessel to be present, if he so desires, at the medical examination and disinfection prescribed by regulation 44.

46. If any vessel does not leave port within 24 hours after the medical examination made under Regulation 44, she shall not leave until—

(a) a fresh medical examination of the passengers and crew has been made under that regulation, and

(b) a fresh bill of health has been given to the master under that regulation.

Provided that such fresh examination may be conducted on board the vessel, whether or not there has been communication with the shore since the previous examination was made, and provided that if the time of departure be after sunrise on the day after that of inspection, the master of the vessel shall send the bill of health to the Health Officer to have the date of departure amended.

47. If, after a bill of health has been given to the master of any vessel and before the vessel leaves the port, any cargo or goods of any kind be placed on or taken off the vessel except in such manner as may be directed by the Health Officer, the vessel shall not leave the port until—

(a) such further medical examination and disinfection as the Health Officer may consider necessary have been made under Regulation 44, and

(b) a fresh bill of health has been given to the master under that regulation.

Provided that such further examination and disinfection may be conducted on board the vessel.

48. (1) After a bill of health has been given to the master of any vessel no person except the pilot or person authorised by the Health Officer shall be permitted to embark on the vessel unless he has been medically examined by the Health Officer as prescribed in Regulation 44.

(2) If any such person is permitted to embark, the Health Officer shall amend the bill of health accordingly.

49. Port-clearance shall not be granted for any vessel, unless and until the master produces the bill of health prescribed by the foregoing regulations:

Provided that, at any port where, in the opinion of Government, local conditions render this relaxation advisable, the authority responsible for granting port-clearance may grant port-clearance for any vessel on receiving from the agents of the vessel a written guarantee that a duplicate of such bill of health, signed by the Health Officer, will be furnished by them to him within forty-eight hours.

50. (1) If the Health Officer considers that any passenger is suffering from, or is in the incubation stage of, any infectious or contagious disease he shall prevent such passenger and his or her relatives and attendants from embarking or sailing; and their baggage and personal effects shall not be allowed on board the vessel and, if already placed on board, shall be removed as early as possible.

(2) For the purposes of this regulation, the term "relatives" shall mean such persons as have been living with, or have been, in the opinion of the Health Officer, in dangerous communication with the suspected passengers.

51. (1) If the Health Officer considers that any member of the crew of the vessel is suffering from, or is suspected to be in the incubation stage of, any infectious or contagious disease—

(a) he shall prevent such member from re-embarking on such vessel and shall refuse to give a bill of health until the baggage and personal effects of such member have been removed from the vessel and such parts of the vessel as have been occupied or frequented by such member have been disinfected; and

(b) the baggage and personal effects of such persons as were in immediate contact with such member of the crew shall be disinfected, and the names of such persons shall be given to the medical officer or master of the vessel for supervision on the voyage.

(2) All action taken under clause (1) of this regulation for the disinfection of a vessel shall be noted in the bill of health.

52. Any person who is prevented by the Health Officer under the foregoing regulations from embarking or sailing may be removed to and kept at a hospital or kept under observation; or, if any such person gives a genuine address, he may, at the discretion of the Health Officer, be subjected to surveillance for a period not exceeding five days.

53. At all ports declared to be infected with plague proper measures shall be taken to prevent rats obtaining access to vessels (Appendix B).

54. Regulations 44 to 53 shall apply to all pilgrim or emigrant ships and may, by order of the Governor in Council, be applied to vessels leaving a port in the Madras Presidency for another in India or Burma.

APPENDIX A.

(See Regulation 53.)

INSTRUCTIONS FOR DISINFECTION.

Personal effects, such as rags, bandages, papers and other articles without value, which in the opinion of the Health Officer, are deemed likely to carry infection, should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or suspected, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam—under pressure if possible—at a temperature of not less than 100° C (212° F.), care being taken that the steam shall reach all parts of each article to be disinfected.

3. *Disinfecting solutions*—

(*a*) Solution of corrosive sublimate of one part in 1,000 with the addition of two parts in 1,000 of hydrochloric acid or 160 grains of chloride of soda to one gallon. The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent solution of pure crystallized carbolic acid, or 5 per cent of crude commercial carbolic acid free from tar oils in a warm solution of soft soap.

(*c*) Freshly prepared lime-wash. *

(*d*) Such proprietary tar acid compound as the Port Health Officer may approve of.

4. *Special instructions to be observed in the employment of disinfecting solution.*—The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of 212° F. without injury, as leather goods, wooden articles stuck together with glue, felt, velvet, silk, etc., should be washed with a disinfecting solution; coins can be disinfected with the solution of soap and carbolic acid. Persons engaged in nursing the sick should wash their hands and faces with one of the carbolic solutions. The carbolic solutions will be useful more particularly for disinfecting articles such as metal, or instruments, which can neither be subjected to a temperature of 212° F. nor placed in contact with corrosive sublimate. Chlorinated lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. *Disinfection of ships on which plague has occurred among human beings or rats.*—All rats on board shall be destroyed by means of sulphurous anhydride or other suitable disinfectant. The cabins, etc., occupied by the sick or those suspected to be suffering from plague shall, at the discretion of the Health Officer, be treated with a solution of corrosive sublimate and thoroughly cleansed with soap and water. In the case of pneumonic plague preliminary disinfection with corrosive sublimate solution shall be invariably carried out.

6. *Disinfection of the hold of an infected ship.*—The bilge-water shall be pumped out and the hold washed with sea-water, a sufficient quantity of a solution of corrosive sublimate being subsequently thrown in at the discretion of the Health Officer. The bilge-water shall not be pumped out when the vessel is in harbour without the written consent of the Health Officer.

APPENDIX B.

(See Regulation 53.)

MEASURES TO BE ADOPTED TO PREVENT RATS OBTAINING ACCESS TO VESSELS.

1. There shall be a space of at least three feet between any part of the vessel and the wall of the dock or wharf.

2. All ropes and hawsers connecting the vessel with the dock or wharf shall be furnished with a circular concave-convex rat-guard at least four feet in diameter, fitting tightly, with the concavity towards the wharf, on the rope or hawser, and so fixed that no part of the margin of the guard shall be less than 24 inches from the rope or hawser, or any other pattern of rat-guard that may be approved by the Governor in Council.

3. To prevent rats reaching the ship by means of a gangway, as few gangways shall be used as possible; all gangways shall be raised at night; and a watchman shall be placed on each gangway during the day from the time the gangway is lowered until it is raised.

4. A responsible person shall be deputed by or under the orders of the Governor in Council to ensure these measures being applied immediately the vessel is berthed.

* The lime wash, if used, contains 20 per cent. of lime and may be prepared as follows:—Take 2 pounds of good quick lime and slake it by sprinkling it gradually with about half a pint of water. When the operation is completed, the resulting powder may be kept in an airtight vessel in a dry place.

For use the quantity of slaked lime obtained from 2 pounds of quick-lime should be placed in a convenient vessel and water added to make one gallon.

Fort St. George, December 16, 1916.

No. 168.—In order to further the development of indigenous industries, the Government of India have instituted, with the sanction of the Secretary of State, a scheme of technical scholarships to provide natives of India, who are capable of taking advantage of it, with the means of studying the progress which has been made in industries and arts in the most advanced countries of the west. The scheme provides for the award of ten scholarships, and at least one of these will be available annually for each province.

Ordinarily the period for which these scholarships may be held is two years, but in special cases it may be increased to three years or reduced below two years. The value of the scholarships has been fixed at £150 sterling a year, exclusive of fees and travelling expenses, but if in any particular case this amount is found insufficient, the Government will be prepared on good grounds to consider its enhancement. The scholarships are tenable in Great Britain and, with the approval of the Secretary of State, in a foreign country.

2. The scholarships are awarded for the promotion of existing Indian industries and the development of new industries. They are not intended for the study of agriculture or for studying civil engineering, geology, law, medicine, forestry or veterinary science, for which provision already exists in India, but may be awarded for the study of electrical or mechanical engineering. Since the institution of these scholarships, eleven scholarships have been allotted to Madras—one was given in 1906 for the study of the weaving industry, one in 1907 for the study of the leather industry, one in 1908 for the study of textile chemistry as applied to the dyeing, bleaching, finishing and printing of textile fabrics, one in 1909 for the study of the chemistry of soap-making and the use of native oils, one in 1910 for the study of metallurgy, two during 1911, one for the study of weaving and one for the study of textile manufacture, one in 1912 for the study of electrical engineering, one in 1913 for the study of the leather goods industry, one in 1914 for the study of dyeing and weaving and one in 1916 for higher electrical engineering.

3. A State technical scholarship will be awarded in this Presidency during the year 1917 for the study of one of the subjects referred to above. Candidates desirous of prosecuting their study under this scheme should submit their applications to the Director of Public Instruction so as to reach him on or before the 15th March 1917.

Applications will be considered only from persons who have already interested themselves practically in some industry and who are desirous of improving their knowledge of that industry by further training in Europe. Other things being equal, preference will be given to graduates. Applicants should specify in their applications—

(1) their age and educational qualifications,
(2) the industry which they propose to study,
(3) their connection with the industry,
(4) the extent of their practical experience in it, and
(5) the proof, if any, of their mechanical aptitude or industrial bent of mind.

4. The holder of the scholarship will not be bound by any engagement to serve the Government on the completion of his course, nor will the Government be bound to employ him. He must generally depend upon his own exertions to make his living on his return to India and must not ordinarily expect to be taken into Government service. In selecting candidates the Government in Council will be guided by considerations of capacity, character and practical interest in the subject selected and the assurance that the candidate will continue to devote himself to that industry on his return to India. No age limit is laid down for scholars. The course of study to be followed, as well as the place in which it is to be prosecuted, will be settled by the Secretary of State when a scholar arrives in England. Other conditions under which the scholarships are held are—

(1) that the candidate is a native of India as defined in section 6 of the Government of India Act, 1870, viz., "a person born and domiciled within the dominions of His Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only";

(2) that he has the consent of his family (i.e., of his father or guardian) to proceed to Europe or America;

(3) that his character is good;

(4) that he has sufficient knowledge of the English language; and

(5) that he is physically fit to undergo the course of life and study that he will have to follow.

5. Selected scholars should in the first instance communicate with the Madras Students' Advisory committee in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England, take with them the originals of their certificates, testimonials and other important personal documents suggested to them by the Secretary to the Madras Students' Advisory Committee.

6. State scholars are required to proceed to England within a reasonable time from the date of their selection in as to arrive there not later than the middle of September, and to reside there for the period of their scholarship unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

7. The following rules have been issued by the Government of India for the guidance of Indian Government scholars in the United Kingdom:—

(1) All Government scholars are required to avail themselves of the information and advice which the Secretary for Indian Students and the * Local Advisers at University centres are in a position to give them, and to apply to their * Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The * Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian Students any matter requiring the sanction of the Secretary of State in Council.

* The Secretary to the Delegacy for Oriental Studies at Oxford and the Secretary to the Inter-collegiate Committee at Cambridge are the local advisers at Oxford and Cambridge, respectively.

(2) Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Cromwell Road, S.W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London, and consulting with him in regard to his course of study, he should also call on the Secretary for Indian Students at the India Office.

(3) Every scholar must obey all instructions which he may receive, either through the Secretary for Indian Students or through his † Local Adviser, and must consult his Local Adviser regularly in regard to his work. No course of study will be sanctioned which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

(4) Every scholar must from time to time, whenever the Local Adviser requires it, submit a certificate from the proper College or University Authority, or from any other Authority under whom he is working, showing that his conduct and progress have been satisfactory.

(5) Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser, and to be forwarded through the † Local Adviser at the end of each academic year to the Secretary of State for transmission to India.

(7) Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year. Vacation study should, as far as possible, take form of practical work.

(8) Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the † Local Adviser six weeks before the end of any academic term. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar, who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

(9) Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the † Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the † Local Adviser will disburse it to the scholar in such instalments as convenience may indicate. Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will, except in special cases, be at the rate of 100*l* a year.

(10) Every scholar is required to lodge with the Secretary for Indian Students at the India Office, London, before his arrival in England, the sum of 15*l* for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

(11) Charges for University and College fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class if no second be available, will, if sanctioned, be defrayed by the Secretary of State. Applications for payment of all these charges should be made through the † Local Adviser. But charges for private tuition, unless specially sanctioned, for books, instruments, hotel bills and medical attendance, must be paid by the scholar himself.

(12) No claim can be admitted for the payment of any expenditure unless the scholar has obtained previous sanction from the Secretary of State.

(13) The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

(14) On the expiration of the scholarship a scholar is provided by the India Office with a free second class passage to India, and he should apply for it without delay through his † Local Adviser. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

* NOTE.—The official Quarter Days are the 1st of January, the 1st of April, the 14st July and the 1st of October.

† The Secretary to the Delegacy for Oriental Studies at Oxford and the Secretary to the Inter-collegiate Committee at Cambridge are the Local Advisers at Oxford and Cambridge respectively.

Note.—The figures in brackets are offered as an approximate indication of the number of days which, in a course extending over 125 lectures, might severally be devoted to the respective periods or tendencies or thinkers enumerated. In the case of Plato, Aristotle, Descartes, Spinoza, Leibniz, Hume, Kant and Hegel, a thorough critical understanding should be aimed at of their main constructive conceptions, ascertained—at least in the case of Spinoza, Hegel and, very specially, Kant—by some measure of first-hand acquaintance with selections from their writings. In respect of the rest of the Syllabus no more is insisted on than such general acquaintance with the most prominent tendencies as may suffice to provide an intelligible setting for the five-mentioned eight thinkers and to give a bird's eye view of the history of philosophy in its outstanding features.

JUDICIAL NOTIFICATIONS.

INVESTITURE OF POWERS.

Under section 183 (1) of the Code of Civil Procedure (Act V of 1908), as amended by the Decentralisation Act, 1914 (IV of 1914), the High Court is pleased to direct that the undermentioned officer shall, in cases in which an appeal is allowed, take down the evidence with his own hand in the English language :—

Mr. Lewis Greville Moore, I.C.S., District Judge, Ramnad.

High Court of Judicature at Madras,
13th December 1916.

C. S. RAMACHANDRA AYYAR,
Assistant Registrar.

NOTIFICATIONS.

Under the provisions of Part X of the Code of Civil Procedure, 1908, and with the previous sanction of His Excellency the Governor in Council the High Court hereby issues the following revised rules regarding "Certified copies" in the Civil Rules of Practice, 1905 :—

Substitute the following rules 41 to 50 :—

Certified copies.

41. When a person is entitled to obtain a copy of a proceeding or document filed in or in the custody of the Court, he may present an application therefor to the Superintendent of copyists or where there is no such officer, to the chief ministerial officer in person. If the proceeding or document has been sent to another Court, the application may, at the option of the applicant, be forwarded to the said Court for compliance or be returned to him, for presentation to the said Court.

42. The application shall be in Form No. 13 and shall set out the name of the applicant, and his position in the suit or proceeding, and a description of the documents of which a copy is required; and an application which is not in proper form shall be returned for amendment.

43. Every day between the hours of 3 and 5 p.m. a list showing the applications in which the records have been received, and the number of stamp papers required, shall be prepared and affixed to the Court's notice board. Such list shall remain suspended for three days, or, if the last day is a holiday, till the next Court day. If the required stamp papers have not been deposited by 5 p.m. on the fourth day counting that on which the list was suspended or, if the fourth day is a holiday, then on the next Court day, the application shall be struck off. Between the hours of 3 and 5 p.m. on each of the intermediate days, the applications upon which the requisite deposits have been made shall be struck off the list. The procedure above prescribed shall apply also to calls for additional stamp papers when the number first supplied has been found to be insufficient. Provided that, where the additional stamp papers called for are not deposited, but the stamp papers originally deposited are sufficient for the preparation of complete copies of one or more documents applied for, the application shall be struck off only as regards the documents which cannot be prepared by reason of the insufficiency of the stamp papers supplied; but it shall be complied with by delivery of such of the completed copies as can be prepared on the stamp papers supplied, the decision of the Superintendent as to the documents to be selected for copying being final.

44. A list of copies ready for delivery shall be posted on the notice board of the Court, and shall remain thereon for three clear days other than holidays. The copy and any unused stamp papers shall be delivered to the applicant between the hours of 10-30 and 11-30 o'clock in the morning and 3 and 5 o'clock in the afternoon; and, if not claimed by the applicant, within twelve months from the date of posting the said list, shall be destroyed. No party shall be entitled to the return of stamp papers which are used, but in which an incomplete copy is written. But the incomplete copy may be completed, if the necessary additional stamp papers are deposited under the orders of the presiding officer within six months from the date of striking off, and may then be delivered in the usual manner.

45. The applicant may, in his application for a certified copy, apply that the same may be delivered to him through the post, at a specified address; and, in such case, the copy shall be forwarded accordingly, and, if the application so requires, by registered post.

46. All copies furnished by the Court shall be certified to be true copies, and shall be sealed with the seal of the Court. The Superintendent of copyists, or other officer appointed by the Judge, shall initial every alteration and interlineation in the copy, and shall sign a certificate at the foot thereof that the same is a true copy, and shall also state the number of alterations and interlineations made therein.

47. Every copy shall bear an endorsement showing the following dates :—

(1) Application made;
(2) Stamp papers (or charges) called for;
(3) Stamp papers (or charges) deposited;
(4) Copy ready;
(5) Copy delivered (or posted).

48. (1) One stamp paper of the value of two annas shall be brought in for every 175 words, or fraction of 175 words.

(2) Four figures shall be taken as equivalent to one word; and vernacular words with short suffixes and inflections shall be counted as single words.

(3) The cost of copying maps, plans, genealogical trees, tabular statements, or other work requiring skilled labour shall be fixed by the Judge, and deposited in Court in cash. Notice of the amount so fixed shall be posted on the notice board of the Court; and the provisions of rule 43 with respect to the payment of monies for copies, shall apply.

49. (1) When a copy of judgment or order passed by a Civil Court is applied for by a party to the suit or proceeding for the purpose of appealing against it to the District or Subordinate Judge's Court, the copy shall be printed, provided the length of the judgment or order (excluding the names of parties and witnesses and the list of exhibits) exceeds 700 words. In cases where the length of the judgment or order does not exceed 700 words, the production of a printed copy is not compulsory. When the plaintiff and defendant apply separately for copies of the same judgment, each must pay the full printing charges and such application will be dealt with by itself irrespective of the other.

(2) The general procedure in applying for such copy, and in disposing of the application shall be that laid down in the above rules relating to certified copies. The Superintendent, examiner or other officer shall calculate the charges required for printing the judgment or order, reckoning at the rate of 4 annas for every 175 words completed and for the remaining words, 1 anna for every 50 words or fraction thereof. Four figures, or four simple letters used as abbreviations, shall be taken to be equivalent to one word. The names of parties and witnesses and the list of exhibits shall also be printed and included in the charges according to the above rates. When tabular statements, genealogical trees and the like, form an integral part of the judgment, they shall also be printed. A special rate for printing these shall be fixed by the Court concerned in each case, having regard to their length and complexity and the space they occupy.

(3) The applicant shall thereupon be informed, by notice of the amount payable by him for printing charges and for postage in cases where it is leviable under clause (7) infra, in the same manner as he is now informed of the number of stamp papers required for a manuscript copy and at the same time he shall be directed to pay that amount in cash by any means he may choose, direct to the authorised printer whose name and address shall be stated, within seven days of the date of the notice in default of which his application for copy will be struck off.

(4) The printer shall ordinarily supply four printed copies to the Court. On receipt of the four printed copies, they shall be authenticated and two copies shall be delivered to the applicant, one bearing an endorsement of dates, such as are endorsed upon manuscript copies, save that the word "charges" shall be substituted for the words "stamp papers" to be filed with the appeal and used at the hearing, and the second to be kept by the appellant for his own use. In computing limitation, the Court may allow, out of the seven days allowed for the payment of printing charges, as many days as it deems fit in each case as time requisite for obtaining a copy, if the printing office is five or more miles distant from the Court calling for the charges. The two remaining copies shall be placed with the records of the case, one to be given *gratis* to the respondent and one spare copy for supply, also *gratis* to second or more respondents having separate interests in the subject matter of the appeal, or for any other exceptional case. The costs of printing and of postage when they have been incurred under clause (7) infra shall be made costs in the appeal, and the Appellate Court shall declare by an express order whether they are to be borne wholly by the appellant or by the respondent or respondents, or proportionately, and in what proportion by each party.

If an appellant requires more than the two copies allowed him by this rule, such extra copies shall be supplied to him on payment of charges calculated at a rate not exceeding one anna per page.

(5) When a copy of the judgment or order passed by an Appellate Court is applied for by a party to the suit or proceeding or appeal for the purpose of appealing against it to the High Court, such copies shall likewise be printed.

On receipt of such application, the Superintendent, Examiner or other officer may, unless the applicant otherwise requests, call also for the judgment or order of the Court of First Instance, against which judgment or order was passed in appeal, and shall collect the necessary charges for printing both. In such case the printer shall, ordinarily, supply eight printed copies six of which shall be delivered to the applicant.

Out of the six copies delivered to him, he shall be charged for two of such copies at the rate mentioned in clause (2) above and for the others he shall be charged at a rate not exceeding one anna per page.

If the applicant applies for more copies or if any other party to the suit, appeal, proceeding or connected suit in cases where there is one judgment or order for several connected suits applies for copies before the order is issued for printing or within a week of the application, whichever is longer, copies shall be supplied on payment of charges calculated at a rate not exceeding one anna per page.

If any application is made after such date, the full printing charges must be paid and such application will be dealt with irrespective of any other.

(6) In order to show cause, when required, why an appeal from an original order or from an appellate decree or order should not be dismissed without notice under Order XLI, rule 11, read where necessary with Order XLII or Order XLIII, rule 3 of the First Schedule to the Code of Civil Procedure, 1908, a party may apply to the District or Subordinate Judge's Court to print a decree or any other paper or if it be not in the English language may present for printing a translation in English of the same, certified by his pleader to be a true translation; such applications shall be dealt with in the same manner as applications for the printing of appellate judgments, provided that printed copies can be delivered to the applicant with copies of the judgments for which he may have applied under the above rules.

(7) If the Court is more than five miles from the printer, the party applying for the copy shall pay for the postage, which like the printing will be taxed as costs in the cause. A uniform rate of one anna for every 700 words shall be charged to the applicant for postage in addition to the charges for printing, and it shall be included in the notice given to him under clause (5) supra for payment direct to the printer.

8. Costs of printing or copying or of transmission of copies by post may be taxed and dealt with as costs in the cause.

AUDIT ORDER OF THE MADRAS ELEMENTARY TEACHERS' CO-OPERATIVE SOCIETY FOR THE CO-OPERATIVE YEAR 1915-16.

The accounts of the Madras Elementary Teachers' Co-operative Society, Limited, No. 1361, for the co-operative year ending 30th June 1916, as audited by Inspector M.R.Ry. R. Krishnaswami Ayyar are passed. The three statements (1) Receipts and Disbursements, (2) Profit and Loss, and (3) Assets and Liabilities as furnished by the Inspector are appended to this order.

2. The number of members continued to be the same as in the previous year. Fixed deposits from members fell from Rs. 24 at the beginning of the year to Rs. 9 at the end of the year, while deposit from non-members fell from Rs. 276 to 166. Five loans aggregating to Rs. 340 were disbursed during the year as against 11 amounting to Rs. 283 in the previous year. Twelve loans aggregating to Rs. 358-12-0 remain outstanding against the members all of which are overdue.

3. Owing to the alteration in the method of determining the profits of the year the society earned a net profit of only Rs. 2-14 8. Of this sum a minimum of at least 25 per cent. or Re. 0-11-7 should be carried to the credit of the Reserve Fund. The balance being small may be credited to reserve in addition to Re 0 1-8 earned on the accumulated reserve and already credited to that account by the Madras Central Urban Bank, and Re 0-0-10 the sum remitted to the Central Urban Bank in excess during the last year. The society is requested accordingly to remit to the Madras Central Urban Bank Rs. 2-14-5 for being invested therein.

4. The society's work was not satisfactory. The members do not seem to take any interest in the affairs of the society. It is hoped that in the next year at least the society's affairs will improve.

AUDIT ORDER OF THE TRIPLICANE URBAN CO-OPERATIVE SOCIETY, LIMITED, FOR THE CO-OPERATIVE YEAR 1914-1915.

The accounts of the Triplicane Urban Co-operative Society, Limited, No. 15, in the City of Madras, for the co-operative year ending 30th June 1915 as audited by M.R.Ry. R. Krishnaswami Ayyar, Head Clerk, Office of the Registrar of Co-operative Societies, Madras, are passed. The three statements of (1) Receipts and Disbursements, (2) Profit and Loss, and (3) Assets and Liabilities as furnished by him are appended to this order.

2. The year under review was the eleventh year of the society's working. The number of members rose from 2,714 at the beginning of the year to 2,795 at its end and the amount of paid-up-share capital fell from Rs. 37,943-3-3 to Rs. 37,274-13-9. The deposits from members at the end of the year stood at Rs. 42,375-6-7 as against Rs. 40,423-13-3 at the end of the previous year.

3. Four hundred and eighty-two loans amounting to Rs. 47,495-3-0 (excluding three loans for Rs. 2,750 to co-operative societies) were issued to members in the year as against 426 loans aggregating to Rs. 42,915 in the previous year. Four hundred and fifty-three loans amounting to Rs. 41,552-0-0 were outstanding against members at the end of the year, of which 113 loans for Rs. 8,047-8-0 were overdue. In the previous year's audit order, the society's attention was drawn to the fact that some loans were disbursed for purposes termed *private* and it was informed that in future, the purpose for which each loan is granted should be noted indefinite terms. It is now observed that the error is repeated and that loans amounting to Rs. 5,118 were given for *private* purposes.

4. The stock purchased during the year amounted to Rs. 5,02,916-12-3 as against Rupees 3,51,834-14-11 in the previous year and the sales of goods to members were for Rs. 5,53,009-14-8 as against Rs. 3,40,197-2-3 in the previous year, with the result that a gross profit of Rs. 5,228-15-11 was earned.

5. During the year, the society earned profit of Rs. 23,512-15-1 as against Rs. 16,520-0-4 in the previous year. Of this amount a sum of Rs. 21,460-3-2 was earned in the distribution department and the balance of Rs. 2,033-11-11 in the credit branch. The amount due to the reserve fund out of the net profits of the year is as follows:—

		Rs.	A.	P.
(1)	The entire net profit of the credit branch as per by-law 52	2,033	11	11
(2)	The whole of entrance fees realised during the year as per by-law 53	54	0	0
(3)	The chit fund contribution (by-law) 55 (2)	90	10	5
(4)	One-fourth of the profits of the distribution department after deducting entrance fees and chit fund contributions (viz.) ¼ of Rs. 21,345-3-2	5,336	3	3
	Total	7,504	12	7

With this amount, the total in the reserve will be Rs. 35,707-10-1. This amount has not been separately invested. The rules of the society are silent on the subject of the investment of the reserve fund but Rule X of the rules framed by Government under Act XI of 1912 must be complied with. The society is requested to report separately to the undersigned on this point.

6. The common good fund on the last day of the previous year was Rs. 14,804-13-5. During the year, a sum of Rs. 4,72-8-0 was added to that fund and Rs. 2,102-6-0 were spent leaving a balance of Rs. 12,874-15-5 on the last day of the year under review.

7. The amount available as per previous year's audit order for distribution under dividend, interest on share capital, bonus to employees, and common good fund was Rs. 12,952-1-0. During the year under review Rs. 2,850-0-5 was spent under this head. With the sum of Rs. 16,008-2-6 available from the profits of the year 1914-1915 the amount left for distribution under dividend on purchases, interest on share capital to members, bonus to employees and to common good fund under by-laws 63 and 64 is Rs. 25,093-3-1.

8. Further remarks on the working of the society are reserved for the audit order on the accounts of 1915-1916.

MADRAS PORT TRUST

MINUTES OF A BOARD MEETING, No. 14 OF 1916–17, HELD ON THE 1ST DECEMBER 1916

Present:

The Hon'ble Sir Francis J. S. Spring, K.C.I.E., *Chairman*.

Mr. P. Eccles, B.A., I.C.S.
Commander C. W. Shearme, R.I.M.
Mr. J. M. Lacey, A.M.I.C.E.
Mr. A. Muithead, R.I.M.
The Hon'ble Mr. G. Fraser.
Mr. J. F. Simpson.
Mr. A. P. Symonds.
Mr. H. P. M. Rae.
Mr. J. H. Thenger.
Khan Bahadur Muhammad Abdul Kaddus Radsha Sahib.
M.R.Ry. Rao Sahib C. Ramanujam Chetti Garu.
M.R Ry. C. Gopal Menon Avergal.

253. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Friday the 17th November 1916.

254. Recorded that during a violent cyclonic storm on the night of November 22nd, 23rd and probably just before midnight, the 6,000-ton cement monolith supporting the lighthouse, at the south end of the new breakwater sheltering the north-east entrance of Madras Harbour was undermined at its base and fell over into the sea, also that, being thus deprived of its bastion head, some 180 lineal feet of the breakwater itself was destroyed and lies below low water; also that for about 100 feet further back the breakwater was badly shaken. Also recorded that no damage was done to any other part of the harbour or of its equipment, but two men on duty in the lighthouse were drowned.

255. Read successive memoranda by the Engineer-Chairman on the measures which he considers must be taken immediately in order to prevent further destruction of the breakwater during the bad weather to be expected in May 1917.

Read also G.O. No 340, Public (Marine), dated the 28th November 1916.

Resolved to support the Engineer-Chairman in every way possible and to place on record an expression of the Board's appreciation of the measures taken by Government to help them through the present crisis.

256. Read again G.O. No 340, Public (Marine), dated the 28th November 1916, in which the Engineer Chairman is authorized to take whatever steps are urgently necessary towards the commencement of the repairs of the breakwater on the understanding that plans and estimates will be submitted with the least practicable delay.

Read a report and estimate amounting to Rs. 1,75,000 submitted by the Engineer-Chairman in compliance with the above orders, for preliminary expenses which must be incurred before concrete blocks can be made and carried out to the near end of the wrecked breakwater.

Resolved to approve of the estimate under section 78 of the Madras Port Trust Act and under the same section to submit it to Government for sanction as well as for sanction under section 75 to the debit of the expenditure in Capital.

257. The Board read with interest, and awaits the further development of, the Engineer-Chairman's sketch suggestion as to the manner in which an impregnable bastion head must probably be designed, in the light of recent experience, in lieu of the 1905 design which has now proved itself

to be inadequate for such cyclonic storms as, at unknown intervals, may be expected on the south-east coast of India.

258. Read a note by the Chairman, dated the 21st November 1916, on G.O. No. 267, Public (Marine), dated the 11th September 1916, having reference to the suggestion, made in paragraphs 7 to 13 of the Auditors' letter to the Board, No. C A.-16-9771, dated the 4th August 1916, that the Trust's accounts should be kept in a different form from that in use in the last twelve years.

Resolved to inform Government that, for the reasons given in the Chairman's note, the Board is unwilling to alter its present system.

259. Read paragraph 9 (v) of G.O. No. 502, Marine, dated the 17th October 1906, and resolved formally to sanction the excesses under certain sub-heads of the Madras Pilotage Fund accounts for 1915-16.

260. Read a note by the Trust's Traffic Manager, dated the 20th November 1916, submitting for the orders of the Board a letter, dated the 14th November 1916, from Messrs. Gordon, Woodroffe & Co. claiming the surplus sale-proceeds amounting to Rs. 18-15-4 of a certain bale of goods ex S.S. "Clan Colquhoun".

Resolved that the proceeds in question be paid to Messrs. Gordon, Woodroffe & Co. on the receipt from them by the Traffic Manager of a letter of indemnity against all subsequent claims which may come forward within one year of the sale.

261. Resolved that the insurance of the Trust's buildings amounting to Rs. 24,66,800 be effected for the year 1917 with the following ten companies in equal shares, subject to their acceptance of the risk :—

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 46·28 inches, the average due for the same period being 47·60 inches.
